Dosage and Administration

Dilute 2 to 4 mL of this product in about 60 mL of water for one time and gargle several times a day.

(Precautions)

 Children should be supervised by their guardians while using this product. (2) This product is only for gargling; do not ingest or use for cuts or burns. (3) Take care so that this product does not get into the eyes. Should it get into the eyes, immediately rinse them with water or lukewarm water and see an ophthalmologist if you develop a severe irritation. (4) Dilute this product as needed and use immediately. (5) Use this product exactly as indicated under "Dosage and Administration".

How to use

This gargle must be diluted before use as follows. There are two measurement lines delineated in the cup aslant to the bottom. Lean the cup and make the lines level. (21) Open the cap of the bottle and put the pouring spout in the cup to avoid splashing of gargle. 2) Slowly push the sides in with your fingers and pour the gargle up to a level between the lines "2" (about 2 mL)and "4" (about 4 mL). (Place the cup back in the original position, and pour water up to the line "60" closer to the edge of the cup. Now you have a dilute solution (about 60 mL) ready for gargling at a time. (Cargle several times a day.

Composition

Active ingredients: povidone iodine 70 mg/mL (available iodine 7 mg/mL) •Additives: ethanol, *I*-menthol, saccharin sodium and flavor

The color of dental materials (such as dentures) containing silver may change when using this product.
